TROUBLE FOR THE POPS.

Trouble has broken out afresh in the populist party in Kansas and this time it has be

miens to be serious.
rs. Mary Yellen Lease, a member of the State board of chartties, has been incontinently bounced from her official posi-tion and the result presages a political storm of very large dimensions.

Governor Lewelling says he removed Mrs. Lease in the interest of harmony, but Mrs. Lease is not inclined to accept that sort of barmony as altogether satisfuctory. Mrs. Lease appears to be a spoils populist and inclined to kick up a row because a democrat had been appointed by was for this reason, it is said, the govher claws to the extent of his ability. But Mrs. Lease is as full of fight as a wild cal and instead of trying to have herself

But the matter has not been permitted labor to rest here. The newspapers have taken are. it up again and the origin of the name is being looked into us the surest way to a complete understanding of the mannor in which it abould be promounced, The heretofore generally accepted state-next that the word is a compound of the than "Karmas," meaning amount water, ithe France "are," meaning a bow, is declared misleading. According to the Indianapolis Sentinet the earliest French writing of the word in "Akansa," and as they always wrote Indian names phonet-ically, it must have been pronounced Ankan-sah. The "r" sound to the first syllable is a corruption, and so is the broad "aw" sound claimed for the hat syllable by the opponents of "zame." As now writ-ten the proper pronunciation is "Ar-kanwith equal accent on the first and hast myllables and none on the second, if there is any desire to follow the original

HELPING THE POOR.

The Union League club of Chicago is considering a plan for the relief of the poor and needy that may be made of very great practical assistance, but it is never-theless open to very serious objection. The plan is to establish loan associations

throughout the city, at which money may be obtained in small sums at very low rates of interest upon such acceptable as-curity as may be offered. This is contemplated as a means of pro-

tecting the poor people who are compelled by their necessities to pledge their per-sonal effects from the avarice of the pawnbrokers and the mortgage sharks. Of course a west decirate of course a great deat of help may be afforded in this way, but it is of a temporary sort that mi toot prove for the bost in the end Encur general to berrow is not nearly so helpful as encouragement. to carn and, as the post has well sold, borrowing dulls the edge of husbandry. The low rate of interest may prove a greater temptation to depend on borrowing rather than on earnest industry and to extravagance rather than strict sconoroy and fragality. Probably a better plan would be to provide for the second-ties of the poor in a way that would not have a second-ties of the poor in a way that would not mare severely tax generosity and not tend to further impoverish them. Last winter Mr. Nathan Strauss of New York gave very substantial solp to the poor without any procession of charity by supplied charged by the regular retail deals and still claimed to make a profit. Mr. At one time sliver was more profitable for commercial than for coinage purposes, and still claimed to make a profit. after the fact does not affect the logic of Judge Cooley's unanswerable argument. It was an "interference with the affairs of a foreign country," and, as such it was a violation of the settled policy of this government from the days of President Washinston. As such, in fact, it received the robuse of President Harrison's socrotary of state, Mr. Foster, who admonished Mr. Stevens that in declaring a protectorate he had gone too far. What follows! The answer, in Judge Cooley's words is that which nine-tenthe, yea, ninecen-twentiells, of the American heople have already given, in the approval everywhere manifested in the views ox-

people have already tiven, in the approval everywhere manifested in the views expressed by President Cleveland in his recent message to congress. With the execution of a few journais and politicisms, whose personal mallemity towards the president is such that they are bound to criticise and find fault with whatever he says or does, almost the entire democratic and independent press of the country and not a few republican journals likewiss give evidence that the moral sense of the country approves of the president's position.
